

No Effort & No Cost Marketing Plan

We have an opportunity to impact the finances of your clinic and the health of your community via our program, **TRANSFORMATIONS-360®** that is only offered by functional and nutritional healthcare practitioners.

In a simple and easy to implement manner, we have people experience:

- 1 Fat loss, while learning how to maintain weight loss over time
- 2 Preventing Type II Diabetes and reversing pre-diabetes
- 3 Having their nutritional deficiencies, chronic conditions and food intolerances pinpointed & corrected, *while*
- 4 Addressing functional imbalances that many times are at the core of their unhealthy bio-markers, *and*
- 5 Accomplishing the above in an easy to implement manner, that is very cost effective but profitable for your practice

These objectives can be achieved **without the need for expensive lab testing**, while having staff implement most, if not all of the program.

Furthermore, we have over **10 "NO-COST" marketing tools** that will interest people to sign-up for the TRANSFORMATIONS-360 Program, and a **system that can generate word of mouth patients** with NO advertising. Finally, with Obamacare there are amazing opportunities to have you **work with groups of people in your community** that we can facilitate. Each event could generate up to \$30,000 in revenues for your practice.

Please call me at **213-798-7400** so I can explain further, and answer your questions, to see if there is a good fit for us to work together.

Thanks,
AL PIRNIA, CEO
TRANSFORMATIONS, Inc.
